SUMMARY

Frontend Developer with 3+ years of experience building modern, scalable, and production-ready web applications using React.js, Next.js, and TypeScript. Experienced in developing LMS platforms, eCommerce solutions, dashboards, and interactive web experiences. Skilled in responsive UI development, API integration, authentication systems, performance optimization, and modern frontend technologies.

EXPERIENCE

2023 – Present

Frontend Developer

Techsoab

- *Develop production-ready applications using React.js, Next.js, and TypeScript.*
- *Build responsive and reusable UI components with Tailwind CSS, shadcn/ui, and Material UI.*
- *Work on LMS platforms, product selling applications, dashboards, and business websites.*
- *Integrate Firebase, Supabase, REST APIs, and authentication workflows.*
- *Implement advanced UI interactions using Three.js, GSAP, and Lenis.*
- *Optimize performance, fix issues, and maintain scalable frontend architecture.*

Frontend Developer

2025 – 2026

Belgium-based Product (Remote)

- *Contributing to a live production product using Next.js, React, TypeScript, and Supabase.*
- *Developing new features, improving existing modules, and maintaining reusable components.*
- *Collaborating with international teams to deliver high-quality frontend solutions.*

PROJECTS

LMS Platforms

- *Built multiple LMS applications using React.js, Next.js, and TypeScript.*
- *Developed dashboards, user flows, and authentication features including Firebase integration and OTP verification.*

Product Selling / E-Commerce Platform

- *Developed a Firebase-connected product selling application with secure email/password authentication.*
- *Implemented admin-controlled OTP verification where users cannot access the dashboard without admin approval.*
- *Added interactive UI elements using Three.js.*

Production & Interactive Web Projects

- *Built modern web experiences using Next.js, React, Three.js, GSAP, and Lenis with responsive designs and smooth animations.*

TECHNICAL SKILLS

- ***Frontend**: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3*
- ***UI:** Tailwind CSS, Material UI, shadcn/ui*
- ***State & APIs:** Redux Toolkit, Context API, React Query, REST APIs*
- ***Backend Services**: Firebase, Supabase*
- ***Animation & 3D**: Three.js, GSAP, Lenis*
- ***Tools**: Git, GitHub, Vite, Figma, Postman*
